

# Federal Contract Opportunities Update

Notices for March 25-30, 2025

This update contains summaries of procurement notices issued between March 25-30, 2025 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

## **F -- PHASE I ESA SERVICES IN VILLAGE OF ALLAKAKET, AK (COMBINE)**

**SOL:** 140A0525Q0016

**DUE:** April 9, 2025

**NAICS:** 562910. THIS IS AN INDIAN SMALL BUSINESS ECONOMIC ENTERPRISE (ISBEE) SET-ASIDE SPECIFIC TO THE DEPARTMENT OF INTERIOR AND INDIAN HEALTH SERVICES. The Bureau of Indian Affairs requires a contractor to perform a Phase 1 Environmental Site Assessment (PH1 ESA) at the old school site within the Village of Allakaket, Alaska. The objective of the project is to gather information required for site remediation. The work to be performed includes research of historical documents, site reconnaissance, identification of contamination, risk evaluation, fieldwork, analysis, and additional activities to determine the nature and extent of any contaminants present at the site. The scope of the investigation shall provide information sufficient to identify potential liability and risk associated with environmental and public health considerations concerning the property. In addition, the PH1 ESA will allow managers to plan further remediation and investigations, if required, to determine cleanup requirements and design a cleanup action in accordance with the Alaska Department of Environmental Conservation (DEC), federal and tribal laws and regulations. The Government contemplates awarding a Firm-Fixed-Price (FFP) Purchase Order with a period of performance from April 21, 2025, through June 30, 2026. OFFERS ARE DUE BY 9:00 AM PDT ON APRIL 9, 2025.

#### **Z -- Z1DA--ABATE B219 CEILINGS-SELECT ROOMS (SRCSGT)**

**SOL:** 36C26025R0059

**DUE:** April 28, 2025

**NAICS:** 562910. THIS IS A FULL AND OPEN COMPETITION. The U.S. Department of Veterans Affairs seeks responses from interested firms qualified to perform abatement of asbestos-containing materials (ACM) in Building 219 at the White City, Oregon, VA Southern Oregon Rehabilitation Center and Clinics (VA SORCC). There are four rooms (approximately 416 sq. ft.) that need the Acoustic Ceiling Tile (ACT) removed and replaced along with six lights, and two vent fans. Above the ACT ceiling on the ceiling structure contains ACM tiles that need abatement. The room numbers are 105, 106, 108, and 109 in Building 219. This project must be done in two different phases. Rooms 105 and 106 will be one phase, and then rooms 108 and 109 will be another phase. This always allows Canteen Services access to their storerooms 104 and 107 during construction. The removal of items will need to follow ACM removal and ICRA procedures to prevent contamination of the area and people outside of ICRA barriers. Materials in Rooms 108 and 109 must be removed through the window. The award will be a Firm-Fixed-Price contract with a period of performance 90 days from Notice to Proceed. OFFERS ARE DUE BY 5:00 PM PDT ON APRIL 28, 2025.

#### **F -- REMEDIAL ACTION OPERATIONS AT FORMER FORT DEVENS, DEVENS, MASSACHUSETTS (SOL)**

**SOL:** W912WJ25RA002

**DUE:** April 30, 2025

**NAICS:** 562910. THIS IS A FULL AND OPEN COMPETITION. The U.S. Army Corps of Engineers requires an environmental services contractor to support activities at former Fort Devens and the former Sudbury Training Annex on behalf of the Army under the BRAC Program. This contract will be a Single Award Task Order Contract (SATOC) Indefinite Delivery/Indefinite Quantity (ID/IQ) contract set-aside competitive acquisition action under the U.S. Small Business Administration (SBA) 8(a) Business Development Program. The major efforts under this SATOC will generally include environmental services at various sites related to (1) long-term monitoring; (2) operations and maintenance activities including landfill inspections; (3) remedial action operations; and (4) community relations support. The main contaminants detected at former Fort Devens include but are not limited to: solvents, petroleum and metals. This SATOC will also include environmental services related to addressing per- and polyfluoroalkylated substances (PFAS), which are present in soil and groundwater at multiple sites and currently in the remedial investigation phase of the CERCLA process. The efforts for the PFAS work may include: additional investigation; preparing remedial investigation reports, feasibility study reports, proposed plans and record of decisions; conducting pilot tests; implementing interim remedial action such as installation of point of entry treatment systems and implementing final remedial actions as specified in the record of decision. OFFERS ARE DUE BY 2:00 PM EDT ON APRIL 30, 2025.
