

Federal Contract Opportunities Update

Notices for March 10-15, 2026

This update contains summaries of procurement notices issued between March 10-15, 2026 that pertain to hazardous waste, investigation and cleanup of environmental contamination, and related environmental topics. However, it does not necessarily contain EVERY notice on these topics.

If you would like to search for additional current and archived notices, or receive notification of solicitation amendments, please visit the [FedBizOpps web site](#).

F -- F108--BEDFORD RADIATION DECOMMISSIONING (SRCSGT)

SOL: 36C24126Q0324

DUE: March 20, 2026

NAICS: 562910. THIS IS A SOURCES SOUGHT NOTICE FOR MARKET RESEARCH PURPOSES ONLY. The U.S. Department of Veterans Affairs seeks responses from qualified firms capable of performing a Radiological Final Status Survey for approximately 6,300 square feet across 20 rooms within Buildings 17, 18, 70, and 79 at the VA Bedford Health Care System in Bedford, Massachusetts. The buildings were previously used for research involving medical isotopes and require radiological decommissioning prior to demolition or redevelopment. Work will include review of the Historical Site Assessment; documentation of room conditions, equipment, and potential radiological or hazardous materials; removal of radioactive waste from Building 79; and development and execution of a Final Status Survey Plan in accordance with MARSSIM requirements, including radiological surveys and sampling of affected and unaffected areas (e.g., drains, floors, walls, fume hoods, benches, sinks, storage areas, and equipment). Contractors and subcontractors must be licensed by the Nuclear Regulatory Commission or the Commonwealth of Massachusetts to perform radiological decommissioning. RESPONSES ARE DUE BY 12:00 PM EDT ON MARCH 20, 2026.

DECONTAMINATION, DEMILITARIZATION AND DEMOLITION TECHNICAL AND OPERATIONAL SUPPORT (SRCSGT)

SOL: N0017426SN0071

DUE: March 25, 2026

THIS IS A SOURCES SOUGHT NOTICE FOR MARKETING RESEARCH PURPOSES. The Naval Surface Warfare Center, Indian Head Division (NSWC IHD), is seeking sources to provide comprehensive technical and operational support for the Energetics Manufacturing Department's Disposal and Decontamination Branch. The Disposal and Decontamination Branch provides a full spectrum of explosive decontamination support for NSWC IHD's energetic manufacturing efforts. The Disposal and Decontamination Branch requires contractor support, which includes, but is not limited to: explosives decontamination of government-owned facilities and equipment; disassembly/dismantling of equipment and/or demolition of facilities; operation of decontamination/thermal treatment units such as an industrial waste processor, a thermal decontamination area, and a thermal treatment area; the demilitarization, handling, storage, and management of bulk and trace explosives as well as Material Potentially Presenting an Explosive Hazard (MPPEH); disposal of scrap metal and other hazardous materials, which may include but is not limited to asbestos, lead and hazardous wastes; and supplementary support, which includes all tasks necessary to achieve mission objectives, such as preparing procedures, material preparation for treatment, certification and verification inspections per NAVSEA OP-5 Chapter 13-15, and final facility turnover. All interested sources shall provide a company brochure or list of capabilities, product literature, a listing of previous or current efforts, including contract number or

description of similar support efforts, organization name, address, a point of contact, phone number, fax number, e-mail address, business size, taxpayer identification number, UEI number, and CAGE Code. RESPONSES ARE DUE BY 3:00 PM EST ON MARCH 25, 2026.

C -- EV35, NEWPORT, SITE 17, LTM, NORTH RAOMAC (SOL)

SOL: N4008526R0113

DUE: April 7, 2026

NAICS: 562910. THIS IS A FULL AND OPEN COMPETITION. The Naval Facilities Engineering Systems Command, Mid-Atlantic Command, requires a contractor to perform Long-Term Monitoring (LTM) and Monitored Natural Attenuation (MNA) of groundwater at Site 17-NAVSTA Newport in Newport, Rhode Island. The LTM groundwater monitoring well network includes 21 monitoring wells; all wells are sampled biannually (Spring & Fall). Groundwater monitoring wells selected for sampling are intended to provide sufficient geographic coverage for evaluating MNA parameters and confirming contaminants of concern (COC) concentrations in groundwater. All samples are analyzed for the following: Select Volatile Organic Compounds (VOCs) - Benzene, Tetrachloroethene (PCE), 1,2-Dichloroethene (1,2-DCE), Trichloroethene (TCE), Vinyl Chloride; Select Metals (total and dissolved) - Arsenic, Cadmium, Lead and Manganese; Polycyclic Aromatic Hydrocarbons (PAHs), plus pentachlorophenol Polychlorinated Biphenyls (PCBs); Anions (chloride, N-nitrate, sulfate); and Alkalinity. The duration of work under this Contract Task Order (CTO) shall not exceed twelve (12) months from the award date for the base option and sixty (60) months from award including option years. OFFERS ARE DUE BY 2:00 PM EDT ON APRIL 7, 2026.

F -- EPA WERRC RFP (COMBINE)

SOL: 68HE0926R0002

DUE: April 30, 2026

NAICS: 541620. THIS IS A FULL AND OPEN COMPETITION. The U.S. Environmental Protection Agency, Region 9, seeks a contractor to support its Water Emergency Response Resources Contract (WERRC). The purpose of the Water Emergency Response Resources Contract (WERRC) is to provide services to the U.S. Environmental Protection Agency (EPA) and other officials supporting the implementation of EPA's responsibilities under the Clean Water Act (CWA) and Safe Drinking Water Act (SDWA). Response activities will support EPA's obligations under the SDWA, CWA, the Stafford Act, as well as any future laws or regulations that establish or expand EPA's response obligations. Work will include Project Planning; General Water Sector Disaster Mitigation; Drinking Water System Response Activities; Wastewater System Response Activities; Analytical Services; Demolition, Restoration, and Soil Stabilization; Provision of Support Facilities to support Water Response/Recovery; Limited Marine/Water Operations; Training; and Logistical Services. The contractor shall support EPA in fulfilling these responsibilities within the region(s) assigned via contract, as well as outside the region on a backup regional response, cross-regional response, and national response. The awarded contract will include a one-year Base Period with four one-Year Option Periods. Questions are due by 5:00 PM on April 1, 2026. PROPOSALS ARE DUE BY 8:00 PM EDT ON APRIL 30, 2026.
